S U P P O R T

...and supporting local non-profits

TOGETHER!

Here are some of the ways our dollars have impacted health:

Since 2008, the Foundation has awarded **grants of more than \$3.8 million** to agencies that help our neighbors who struggle to put food on the table, or pay the rent, get the support they need.

City Green's markets and Veggie Mobile stops increased by 31% from 2017-2018, resulting in more than **1,450 community members who were able to take advantage of the Good Food Double Bucks program.**

The Montclair Institute for Lifelong Learning (MILL) fosters opportunities to expand social connections and build knowledge and new skills for adults aged 55+. More than **250 classes** have been offered since its inception in 2015, and there have been more than **1,500 registrations** this year alone!

A grant to Zufall Health Center will support construction of a state-of-the-art health care facility in West Orange, **where everyone receives high quality, affordable healthcare.**

The Center of Excellence for Latino Health at Clara Maass Medical Center received funding to **improve health care delivery and provide preventive screenings** to the Bloomfield Latino community.

Partners for Health marked its 10th anniversary by distributing **grants totaling \$100,000** to 10 Community Impact Awardees. Those recognized are working to address hunger, homelessness, chronic disease prevention, oral health care, and mental health.
